Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

1. BACKGROUND

The Federal government has established goals of deploying 30 GW of offshore wind energy by the year 2030 and 110+ GW of offshore wind by 2050. The State of California has established goals of deploying 5 GW of offshore wind energy by 2030 and 25 GW of offshore wind energy by 2045. Studies by the Federal Bureau of Ocean Energy Management, the National Renewable Energy Lab, and the California Energy Commission have indicated that major port development throughout California will be required in order for the Federal/State goals to be realized. The Humboldt Bay Harbor, Recreation and Conservation District (District) is developing the Humboldt Bay Offshore Wind Heavy Lift Multipurpose Marine Terminal (“Project”) to support offshore wind energy development. The District is committed to open and meaningful community engagement processes throughout the project development process. This document outlines the District’s strategies for communicating with interested parties, affected communities, and the general public. A tentative schedule of planned future communications and meetings with interest groups, interested parties, affected communities, governmental entities, and the general public can be found in Table 1. The District has established a community engagement strategy that will encourage early and meaningful input. The District will endeavor to carefully consider all comments received.

2. PROJECT PURPOSES

The proposed project will serve several purposes, including:

- A. Redevelop and repurpose a blighted and largely unutilized industrial site that formerly operated for decades as a major regional employment center.
- B. Create a diversity of new jobs and stimulate regional economic development.
- C. Develop a project that establishes Humboldt Bay as a global leader in addressing climate change and energy decarbonization by providing a critical role in offshore wind renewable energy development.
- D. Develop a facility that can contribute to the Federal goal of deploying 30 GW of offshore wind energy by the year 2030, the State goal of deploying 5 GW of offshore wind energy by 2030, and the State goal of deploying 25 GW of offshore wind energy by 2045.
- E. Provide the facilities and infrastructure required for Humboldt Bay to serve as the first floating offshore wind “staging and integration” port in California. According to the “California Floating Offshore Wind Regional Ports Assessment” study published by BOEM in January of 2023, Humboldt Bay is the only port capable of serving all three of the primary port needs of the offshore wind industry, which are: staging and integration (S&I), onsite manufacturing/fabrication (MF), and operations and maintenance (O&M). In addition, according to the BOEM study, only the Ports of Humboldt Bay, Los Angeles, and Long Beach are capable of conducting S&I functions. Among these three ports, only Humboldt Bay has immediately available developable space. Thus, a major purpose of the proposed project is to serve as California’s initial S&I port.
- F. Design and construct the site in such a way that it can serve multiple purposes either simultaneous with the offshore wind energy functions described above or following the conclusion of the need for those offshore wind energy functions. Additional purposes could include breakbulk uses, dry bulk, wood product manufacturing/shipping, cargo laydown/storage/transport, and/or other related maritime transport uses that require heavy-lift wharfs and large laydown yards.
- G. Create incentives and funding streams for continued and improved maintenance of Humboldt Bay port facilities, including year-round maintenance of channel and marina depths.
- H. To the degree feasible, develop a marine terminal site with modern environmental standards related to minimization of greenhouse gas emissions, onsite renewable energy generation, green building materials, the electrification of terminal operations, and the facilities needed to accommodate vessel shore power.
- I. Prepare the site for sea level rise.

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- J. Establish a modern eco-friendly shoreline transition between the marine environment and the upland development.
- K. Address any residual soil contamination that currently exists at the site.
- L. Generate revenue for the Harbor District that can be used for general District purposes throughout the rest of the Bay, including dredging, conservation, ecological restoration, and recreation programs.

3. COMMUNITY ENGAGEMENT OBJECTIVES

Throughout the life of the project, the District endeavors to meet the following objectives related to community engagement:

- **Inclusiveness and equity:** The District will strive to involve the people that will be most affected by the project while respecting cultural and language differences. The District will work to identify and remove barriers to participation that have historically disengaged residents and communities.
- **Cultural competence:** The District will work to recognize, understand, and respond effectively to racial, ethnic, cultural, and linguistic experiences of interested parties and effected communities.
- **Sharing of background information:** The District will provide educational content to interested parties to ensure that all participants are well informed and understand the greater context of proposed project activities.
- **Easy participation:** The District will create mid-project milestones that offer various ways for various audiences to learn about the project and to provide input via electronic and in person channels.
- **Transparency:** The District will act with integrity in open process, while providing access to clear, reliable information. The District will ensure that final versions of all district-generated and publicly funded project-related documents/studies are available to all interested parties.
- **Meaningful engagement and opportunities for input:** The District will facilitate open, inclusive, equitable, and unbiased processes that allow various audiences genuine opportunities to provide input, to give recommendations, and to offer feedback.
- **Timely communication:** The District will regularly and reliably communicate major project decisions/activities in a timely and predictable manner.
- **Respect:** The District will receive discussions and feedback in an open and respectful manner, regardless of differences in perspective, opinion, or desired outcome. Participants should feel heard.
- **Evaluation:** The District will regularly assess the objectives and strategies of this document in pursuit of fair and productive civic engagement. The District will revise this document as needed to apply on-going “lessons learned.”

4. IMPACTS, EQUITY, AND ENGAGEMENT INTERNAL EVALUTATION CRITERIA

At each stage in the project, the Harbor District will consider the following:

1. Who is positively impacted by the decision?
2. Who may be negatively impacted and for how long?
3. What are the main concerns, issues and interests of the interested parties and affected communities?
4. Will any individuals, institutions, or groups be disproportionately impacted?
5. Is additional public input needed or required?
6. Are there any linguistic or cultural barriers to engaging with impacted/interested parties and affected communities?

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

5. ANTICIPATED CATEGORIES AND EXAMPLES OF INTEREST GROUPS, INTERESTED PARTIES, AFFECTED COMMUNITIES, AND GOVERNMENT AGENCIES

The Harbor District anticipates that this project will be of interest to many different categories of interested parties and affected communities (IPACs). The District will strive to be accessible to each category/type of IPAC and will strive to hear all interests, concerns, and requests. A preliminary list of categories of IPACs (with representative examples) is presented below:

- Tribal governments identified by the Native American Heritage Commission as the Tribes with whom the District should communicate regarding this project:
 - Bear River Band of the Rohnerville Rancheria
 - Big Lagoon Rancheria
 - Blue Lake Rancheria
 - Cher-Ae Heights Indian Community of the Trinidad Rancheria
 - Hoopa Valley Tribe
 - Karuk Tribe
 - Resighini Rancheria
 - Round Valley Reservation/ Covelo Indian Community
 - Wiyot Tribe
 - Yurok Tribe
- Other Tribal governments in the general region that request to be informed and provide input on the project.
- Individuals/businesses related to fishing/aquaculture and various fishing related groups/organizations, such as:
 - Humboldt Area Saltwater Anglers
 - Humboldt Fishermen's Marketing Association
 - Pacific Coast Federation of Fishermen's Association/Institute for Fisheries Resources
 - Others tbd
- Individuals and associations of residents that live near the project site, such as:
 - Peninsula Community Collaborative
 - Others tbd
- Individuals/businesses that own properties, docks, wharfs, and/or shipping facilities adjacent to or within Humboldt Bay
- Individual business owners and business-advocacy organizations, such as:
 - Greater Eureka Area Chamber of Commerce
 - Humboldt Builders Exchange
 - Others tbd
- Labor advocacy organizations and labor unions, such as:
 - State Building and Construction Trades Council
 - The Humboldt and Del Norte Construction Trades Council
 - Operating Engineers Union No. 3
 - International Longshore and Warehouse Union (ILWU)
 - Laborers' International Union Local 324
 - Carpenters' Union Local 751
 - Others tbd
- Local/regional environmental/conservation advocacy NGOs and non-profits, such as:
 - Environmental Protection Information Center (EPIC)

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- Humboldt Baykeeper
- Friends of the Dunes
- Humboldt 350.org
- Northcoast Environmental Center
- Redwood Region Audubon
- Surfrider Foundation Humboldt
- Citizens Protecting Humboldt Bay (CPHB)
- Local/regional advocacy NGOs, non-profits, and community organizations
 - Redwood Community Action Agency (RCAA)
 - The Redwood Region Climate and Community Resilience Hub (CORE Hub)
 - The North Coast Offshore Wind Community Benefits Network
 - Housing advocacy groups
- Other NGOs and non-profits, such as:
 - California Association of Port Authorities (CAPA)
 - Humboldt Bay Development Association (HBDA)
 - Redwood Coast Energy Authority (RCEA)
 - Others tbd
- Local, State, and Federal governmental agencies (regulatory/permitting agencies, utility providers, funding agencies, and other government agencies)
 - US Army Corp of Engineers (USACE)
 - US Coast Guard
 - Bureau of Ocean Energy Management (BOEM)
 - US Department of Transportation, Maritime Administration (MARAD)
 - US Environmental Protection Agency (EPA)
 - National Marine Fisheries Services (NOAA NMFS)
 - US Fish and Wildlife Service
 - California Native American Heritage Commission (NAHC)
 - California Energy Commission (CEC)
 - California Public Utilities Commission (CPUC)
 - State Lands Commission (SLC)
 - California Coastal Commission (CCC)
 - California Department of Fish and Wildlife (CDFW)
 - California State Transportation Agency (CalSTA)
 - California Department of Transportation (Caltrans)
 - North Coast Regional Water Quality Control Board
 - North Coast Unified Air Quality Management District
 - California Governor's Office of Business and Economic Development (GoBiz)
 - California State Coastal Conservancy (SCC)
 - California Department of Housing and Community Development (HCD)
 - California Governor's Office of Planning and Research
 - California Workforce Development Board
 - Humboldt Bay Harbor, Recreation and Conservation District (HBHRCD)
 - County of Humboldt (various departments)
 - Humboldt Harbor Safety Committee
 - Samoa Enhanced Infrastructure Finance District
 - City of Eureka

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- Humboldt Bay Municipal Water District
- Samoa Peninsula Community Services District
- PG&E
- Other utility-related public service districts and utility providers
- The Workforce Development Coalition of Humboldt County
- Others tbd
- The California Energy Commission’s Humboldt Bay Wind Port State Agency Working Group
- Local, State, and Federal elected officials
- Educational organizations/institutions, such as:
 - CalPoly Humboldt
 - College of the Redwoods
 - Humboldt County Office of Education
 - Others tbd
- Private citizens
- Private development companies, offshore wind development companies, etc.
- Other west coast ports
- Others tbd

6. PLANNED FUTURE PUBLIC MEETINGS AND PLANNED COMMUNICATIONS TO THE GENERAL PUBLIC, INTERESTED PARTIES, AND AFFECTED COMMUNITIES

At a minimum, the Harbor District plans to host the following meetings that will be open to the general public. In addition, the Harbor District plans to engage in the following forms of communication to the general public and IPACs:

- Communications:
 - Interested parties may sign up to join a general email distribution list. The District will maintain an on-going list of interested parties. Once per quarter, members of the email distribution list will receive an email that summarizes relevant project updates. The total number of emails may occasionally exceed one email per quarter.
 - The District maintains a project-specific webpage on the District’s website. Updates will be periodically posted on the Harbor District website: <https://humboldtbay.org/humboldt-bay-offshore-wind-heavy-lift-marine-terminal-project-3>.
 - Planned project schedules will be periodically updated on the project-specific webpage.
 - The District will post final versions of project-related documents/studies on the project-specific webpage.
 - New informational videos will be periodically posted on the Harbor District website and the Harbor District YouTube channel: <https://www.youtube.com/@humboldtbayharbordistrict>.
 - Upon request, District staff will attend meetings of various community interest groups (such as Rotary clubs, Chambers of Commerce, Peninsula Community Collaborative, etc). If requested to do so, District staff will provide a general presentation at such meetings. The District will not guarantee attendance of more than one meeting per interest group per quarter.
 - Monthly Harbor Commissioner public meetings occur on the 2nd Thursday of each month at 6pm. Offshore-wind-project-specific items may occur at some meetings. An agenda for each meeting is posted at least 72 hours in advance of each meeting.
 - CEQA-related and permit-related public hearing notices will be periodically posted in a local newspaper(s).
 - The District may periodically issue press releases and/or participate in media interviews.

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- A small quarterly newsletter about Offshore Wind in Humboldt Bay will be distributed once each quarter to the general email distribution list and will be posted on the District website.
- Meetings:
 - Monthly Harbor District Board Meetings
 - These typically occur on the 2nd Thursday of each month at 6pm. An agenda for each meeting is released at least 72 hours in advance of each meeting.
 - Project-specific items may or may not occur at any given meeting (each item includes a public comment period). For examples of project-specific items, see Section 9 of this document below.
 - Adoption of Harbor District permit for the project following the certification of the Final CEQA EIR.
 - CEQA:
 - CEQA NOP Public Hearing (includes a public comment period).
 - CEQA DEIR Public Hearing (includes a public comment period).
 - CEQA FEIR Public Hearing (includes a public comment period).
 - General Public Meetings (between one and three to be scheduled between June of 2023 and December of 2024).

A tentative schedule of planned future communications and meetings with interest groups, interested parties, affected communities, and the general public can be found in Table 1.

7. PLANNED PRE-RECORDED EDUCATIONAL AND INFORMATIONAL VIDEOS

The District will periodically post educational and informational videos on the Harbor District website and the Harbor District YouTube channel. Videos can be found here: <https://www.youtube.com/@humboldtbyharbordistrict>. Planned videos include (not listed in anticipated chronological order):

- Introduction to Offshore Wind: Why, Who, How, Where, and When (1 hour version)
- Introduction to Offshore Wind: Why, Who, How, Where, and When (10-minute version)
- Summary of Humboldt Bay Harbor District's Project
- Baywide Master Planning for Offshore Wind
- Others tbd

8. PLANNED FUTURE COMMUNICATIONS AND MEETINGS WITH SPECIFIC INTEREST GROUPS, INTERESTED PARTIES, AND AFFECTED COMMUNITIES

Tentative schedule of planned future communications and meetings with interest groups, interested parties, affected communities, and the general public can be found in Table 1. The Harbor District will participate in many communications and limited-invite meetings with various categories of interest groups, interested parties, and affected communities, including:

- Meetings with Tribal governments. For a list of the Tribes that has been identified by the Native American Heritage Commission as the Tribes with whom the District should communicate, see Section 5 of this document above. The District will communicate with other Tribal governments in the general region that request to be informed about the project. For examples of meetings that have already occurred, see Section 10 of this document below.

tbd	= It is unknown if this activity is going to occur in this time period
	= This activity will not occur during this time period

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- Meetings with various interest groups, interested parties, and affected communities. For examples of the types of groups/organizations with whom the District will meet, see Section 5 of this document above. For examples of meetings that have already occurred, see Section 10 of this document below.
- Meetings with various governmental agencies related to permitting, funding, utilities, and other topics. For examples of the agencies with whom the District expects to meet, see Section 5 of this document above. For examples of meetings that have already occurred, see Section 10 of this document below.

9. PUBLIC MEETINGS COMPLETED TO DATE

The Harbor District hosted the following meetings, each of which was open to the general public with an agenda released at least 72-hours prior to each meeting:

- **2/11/21:** HBHRCD Public Meeting: Board of Commissioners Approved a Contract with LACO Associates to Develop a Conceptual Master Plan for a New Multipurpose Terminal and Associated Upland Facilities Between Redwood Marine Terminal I and II
- **4/8/21:** HBHRCD Public Meeting: Board of Commissioners Reviewed Potential Funding Opportunities to Support the Development of a New Multipurpose Terminal to Support the Emerging West Coast Offshore Wind Industry
- **5/13/21:** HBHRCD Public Meeting: Board of Commissioners Reviewed Conceptual Master Plan for Development of a New Multipurpose Terminal to Support the Emerging West Coast Offshore Wind Industry and Approved Contract to Prepare Grant Application
- **5/20/21:** Humboldt Harbor Safety Committee Public Meeting: Discussion of concept for "Proposed New Wind Energy Terminal"
- **6/10/21:** HBHRCD Public Meeting: Board of Commissioners Reviewed Preliminary Cost Estimates for Conceptual Master Plan for Development of a New Multipurpose Terminal to Support the Emerging West Coast Offshore Wind Industry; Requested Financial Assistance from The Board of Supervisors; and Amended Contract to Prepare Grant Application
- **7/8/21:** HBHRCD Public Meeting: Board of Commissioners Reviewed Preliminary Cost Estimates for Development of a New Multipurpose Terminal to Support the Emerging West Coast Offshore Wind Industry, Provided Direction Regarding Size of the Planned Terminal, and Committed Funds/Staffing
- **8/12/21:** HBHRCD Public Meeting: Board of Commissioners Amended the Contract with Moffat & Nichol to Prepare a \$56 Million Grant Application for a New Heavy Lift Terminal by Increasing the Contract by \$20,000
- **10/14/21:** HBHRCD Public Meeting: Board of Commissioners Authorized the Release of Request for Qualifications for Engineering Services and Preparation of CEQA/NEPA Environmental Documents for the 168-Acre New Multipurpose Heavy Lift Dock and Upland Facilities to Support the Emerging Offshore Wind Industry
- **12/9/21:** HBHRCD Public Meeting: Board of Commissioners Authorized the Executive Director to Execute a Funding Agreement with the State Lands Commission for \$571,191 of Federal American Rescue Plan Act Funds to Assist with the Development of a New Heavy Lift Terminal
- **3/10/22:** HBHRCD Public Meeting: Board of Commissioners Approved a Contract with the California Energy Commission to Receive a \$10,450,000 Grant to Repurpose the Redwood Marine Terminal to Support Offshore Wind Energy Development
- **3/10/22:** HBHRCD Public Meeting: Board of Commissioners Approved a Contract with Moffatt & Nichol in the Amount of \$3,567,500 for Design, Permitting, and Coordination Services for the District's Multipurpose Terminal Replacement Project at Redwood Marine Terminal I and Navigation Channels
- **3/17/22:** Humboldt Harbor Safety Committee Public Meeting: Discussion of concept for "Proposed New Wind Energy Terminal"

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- **4/14/22:** HBHRCD Public Meeting: Board of Commissioners Received a Report Regarding Upcoming Grant Application for Port Infrastructure Development Program
- **5/12/22:** HBHRCD Public Meeting: Board of Commissioners Adopted Resolution 2022-04 Authorizing the Execution of a Grant Agreement and Accept Funds from the Maritime Administration of the US Department of Transportation for a 2022 Port Infrastructure Development Program Grant for the Humboldt Offshore Wind Terminal Project
- **7/19/22:** Humboldt Harbor Safety Committee Public Meeting: Discussion of "Offshore Wind Energy Update"
- **8/15/22:** HBHRCD Public Meeting: Board of Commissioners Received a Report and Provide Direction Regarding the Potential to Enter into a Project Labor Agreement Regarding the Development of the New Heavy Lift Marine Terminal to Support the Offshore Wind Industry
- **9/8/22:** HBHRCD Public Meeting: Board of Commissioners Adopted Resolution No. 2022-08 thereby Adopting the "Property Acquisition and Disposition Plan for the Multipurpose Marine Terminal Master Plan"
- **10/27/22:** HBHRCD Public Meeting: Board of Commissioners Approved an Exclusive Right to Negotiate Agreement with Crowley Wind Services, Inc. for the Potential Lease of Real Property for the Development and Operation of a New Heavy Lift Marine Terminal for the Proposed Offshore Wind Industry
- **11/17/22:** Humboldt Harbor Safety Committee Public Meeting: Discussion of "New Port Terminal Update"
- **2/9/23:** HBHRCD Public Meeting: Board of Commissioners Received a Report Providing Status Update of Contracts and Budgets Associated with the District's Offshore Wind Heavy Lift Marine Terminal Project.
- **3/9/23:** HBHRCD Public Meeting: Board of Commissioners Adopted Resolution 2023-05 Concerning Offshore Wind Development off the West Coast of the United States and around Humboldt Bay.
- **4/13/23:** HBHRCD Public Meeting: Board of Commissioners Adopted Resolution 2023-05 Authorizing the Execution of a Grant Agreement for a 2023 Port Infrastructure Development Program Grant for the Humboldt Offshore Wind Terminal Project

Note that the District may not maintain a comprehensive list of all meetings that occur.

10. OTHER ENGAGEMENTS COMPLETED TO DATE WITH INTERESTED PARTIES AND AFFECTED COMMUNITIES

The Harbor District hosted the following meetings with IPACs:

- 4/28/22 – Pre-project Introductory Meeting with County Planning Staff
- 5/31/22 – Pre-project Introductory Meeting with California Governor's Office of Business Development (GoBiz)
- 6/22/22 – Pre-project Introductory Meeting with State Officials and Other Guests
 - Blue Lake Rancheria
 - Hoopa Valley Tribe PUD
 - Department of Fish and Wildlife
 - Humboldt Baykeeper
 - County of Humboldt
 - Redwood Coast Energy Authority
 - 2nd US Congressional District Office (Huffman)
 - Cal Poly Humboldt
 - California Public Utilities Commission
 - California Energy Commission
 - Schatz Energy Research Center (SERC)
- 7/12/22 – Civil Utility Provider Meeting

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- HBMWD
- PCSD
- 7/13/22 – Enviro-NGO Pre-Project Site Tour
 - Environmental Protection Information Center (EPIC)
 - Humboldt Baykeeper
 - Resources Legacy Fund
 - Surfrider Foundation
- 7/14/22 – Pre-project Introductory Meeting with Wiyot Tribe
- 7/20/22 – Pre-project Introductory Meeting with BOEM
- 7/27/22 – Pre-project Introductory Meeting with USACE
- 7/27/22 – Pre-project Introductory Meeting with Multiple Regulatory and Permitting Agencies
 - California Coastal Commission
 - California Natural Resources Agency; Ocean Protection Council
 - Department of Fish and Wildlife
 - NOAA/ National Marine Fisheries Service
 - North Coast Regional Water Quality Control Board
 - State Lands Commission
 - Water Board
 - Humboldt County Planning
 - Senator Padilla’s Office
 - U.S. Senator Dianne Feinstein’s Office
 - Bureau of Ocean Energy Management
 - California Energy Commission
- 9/7/22 – Pre-project Introductory Meeting with Humboldt Area Foundation
- 9/12/22 – Pre-project Introductory Meeting with Humboldt County Aviation Division
- 9/14/22 – Pre-project Introductory Meeting with Humboldt County Workforce Development Board
- 9/29/22 - Assemblymember Woods & Staff
- 10/4/22 – Pre-project Introductory Meeting with California Association of Port Authorities
- 10/14/22 – Pre-project Meeting with CoreHub
- 10/15/22 – California Association of Port Authorities – Discuss common interests of California ports and abilities to accommodate offshore wind projects
- 10/19/22 – Pre-project Meeting with CERF
- 11/4/22 – Pre-project Meeting with US Dept of Commerce
- 11/10/22 – California Association of Port Authorities – Discuss common interests of California ports and abilities to accommodate offshore wind projects
- 11/14/22 – Pre-project Introductory Meeting with Samoa Peninsula Community Group
- 11/21/22 – Pre-project Introductory Meeting with Governor’s Office of Infrastructure and Guests
 - Antonio Villaraigosa, Infrastructure Advisor to California Governor
 - State Assemblymember Wood
 - State Senator McGuire
- 11/21/22 – Pre-project Introductory Meeting with State Assemblymember Wood’s Office
- 12/5/22 – Pre-project Introductory Meeting with Brightline and Guests
 - Brightline
 - California Energy Commission
 - CA Department of Fish and Wildlife
- 12/8/22 – Pre-project Introductory Meeting with State Senator McGuire and Staff

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- 12/15/22 – California Association of Port Authorities – Discuss common interests of California ports and abilities to accommodate offshore wind projects
- 1/4/2023 – Project Update for Eureka CM
- 1/11/23 – Introductory meeting with MARAD regional representative
- 1/18/23 – California Association of Port Authorities – Discuss common interests of California ports and abilities to accommodate offshore wind projects
- 1/19/2023 – CoreHub Meeting
- 1/23/2023 – Meeting w/ Port of Long Beach to discuss common port interests
- 1/24/2023 – Meeting w/ MARAD PIDP Program to receive FY22 PIDP application debrief
- 1/25/2023 – CDFW – Eelgrass
- 1/31/2023 – Eureka Chamber - Member Pres.
- 2/2/2023 – Meeting w/ Port of Long Beach to discuss common port interests
- 2/6/2023 – HCOE - Pres. To Educators
- 2/7/2023 – Meeting w/ American Association of Port Authorities and the Port of Long Beach to discuss common port interests
- 2/8/2023 – HBMWD and PCSD re: Utilities
- 2/10/2023 – EPA and USACE re: Dredging & HOODS
- 2/14/2023 – Meeting w/ MARAD regional representative
- 2/15/2023 – Water supply/demand
- 2/16/23 – California Association of Port Authorities – Discuss common interests of California ports and abilities to accommodate offshore wind projects
- 2/16/2023 – County Zoning, LCP, GP
- 2/27/2023 – CoreHub Meeting
- 3/3/2023 – CEC Boat Tour of Project Site
- 3/3/2023 – Meeting after CEC Tour of Project Site
- 3/15/23 – California Association of Port Authorities – Discuss common interests of California ports and abilities to accommodate offshore wind projects
- 3/20/2023 – Meeting with US Navy and discussion of upcoming West Coast DoD Joint Agency Working Session
- 3/21/2023 – Meeting w/ County
- 3/27/2023 – CoreHub Meeting
- 4/5/2023 – Meeting w/ Port of San Francisco
- 4/7/2023 – Meeting w/ Port of Long Beach
- 4/12/2023 – Meeting w/ MARAD NEPA Team
- 4/12/2023 – OFW Panel @ PCCHPM Conf.
- 4/19/2023 – California Association of Port Authorities – Discuss common interests of California ports and abilities to accommodate offshore wind projects
- 4/24/2023 – CoreHub Meeting
- 4/28/2023 – CAPA and State Sec. of Transp.
- 5/4/2023 – Port of SF
- 5/10/2023 – Presentation of Project at Pacific Offshore Wind Conference in Sacramento
- 5/11/2023 – Presentation of Project at conference: “POWER CA Partnering For Ocean, Wind, and Energy Renewables in California”
- 5/18/2023 – Presentation of Project at California Marine Affairs and Navigation Conference in Morro Bay
- 5/24/2023 – Presentation of Project at “Floating Offshore Wind Days” conference in Haugesund, Norway.
- 6/1/2023 – Presentation of Project to Humboldt County Department Heads

Community Engagement Strategy: Humboldt Bay Offshore Wind and Heavy Lift Marine Terminal Project

- 6/7/2023 – Presentation of Project to UMass Offshore Wind Certificate program (virtual)
