At our last Harbor District meeting, I was charged with bringing back to the other Commissioners, suggested edits for SB 1029 McGuire.

These proposed changes work with the spirit of the “The Great Redwood Trail” SB1029. The following suggested edits are a balanced approach to allow for commerce and environmental priorities to be met equally and recognizing that a balance of both is important.

1. CalTrans, California Transportation Commission and Department of Transportation all have demanded that the NCRA be abolished. Everything else is secondary. There must be push back regarding Department of Transportation becoming the agency in charge of the right of way. Local control is preferable. Possibly the Harbor District would be appropriate for at least temporary management.

2. The provision in Section 5585 (b) that excursion rail service "shall not interfere with or harm the agency's trail" must be removed. We must stress that maintaining the rails is primary and not subservient to the adjacent trail. Maintaining all options is most beneficial to the future of transportation in Humboldt County. Removing one (rail) just because it is an expedient to enhancing another (trail) is shortsighted. We need and should demand both rail with trail. We need to continue with our region’s 2012 adopted policy of “Rails with Trails”. Both Arcata and Eureka have been very successful installing and maintaining trail with rail.

3. An excursion train operating in Humboldt County is widely supported. The possible excursion train should reach Founder’s grove at South Fork just below Scotia and North around the Bay to Fairhaven with options of spurs into Arcata if needed. The local lodging alliances see it as a way to increase Humboldt County’s tourism business, this gets people to stay another day. The Alliances, have financially supported an update to the existing excursion train feasibility study. Past studies have indicated this is a viable tourism component to Humboldt Bay. An excursion train fits well with the City of Eureka, the County and the District’s work to enhance the cruise ship business in Humboldt Bay.

4. Because of the enormous investments in docks along the Bay, it is imperative that the District protect all forms of transportation options around the port. A short rail system can assist in loading and unloading of cargo and connect the Bay to nearby warehouse terminal facilities. This same short rail system could assist in the movement of dredge spoils for local beneficial reuse within the county. This system could reduce truck traffic dramatically with multiple obvious benefits in financial costs and environmental sensitivity and community enhancements. A side benefit, currently by the rail lines existing around the Bay are dike like protection to public roads and trails and public and private lands.

5. Lastly, the use of a short rail from Scotia to the North reaches of Humboldt Bay and or Arcata could allow for mass transit opportunities both in an environmentally sound manner and fiscally sound manner. This simple transit service could connect South and North communities benefiting the entire County and assist and augment the Transit Authority’s bus schedules.

SENATE BILL No. 1029

Introduced by Senator McGuire

February 08, 2018

An act to add Section 14111 to, and to add Chapter 4 (commencing with Section 93030) to Title 12 of, the Government Code, to add Chapter 14 (commencing with Section 5880) to Division 5 of, and to repeal Section 5883 of, the Public Resources Code, and to amend Sections 105001, 105003, 105012, 105020, 105032, and 105095 of, to add Section 105088 to, and to repeal Sections 105104, 105105, and 105180 of, the Public Utilities Code, relating to transportation.

LEGISLATIVE COUNSEL'S DIGEST

(1) Existing law creates the North Coast Railroad Authority with various powers and duties relating to rail service in the north coast area of the state, including the authority to acquire, own, operate, and lease real and personal property reasonably related to the operation and maintenance of railroads.

This bill would require the authority, before April 1, 2019, to transfer its rights, privileges, and responsibilities, excluding any preexisting liability related to debt, litigation, or contractual obligations, relating to both its right-of-way south of a point in the City of Willits and the railroad assets the authority owns to the Sonoma-Marin Area Rail Transit District, and to transfer its rights, privileges, and responsibilities, excluding any preexisting liability related to debt, litigation, or contractual obligations, relating to its right-of-way north of that point in the City of Willits to the Department of Transportation. The bill would abolish the authority after those transfers are made.

(2) Existing law establishes the Active Transportation Program, within the Department of Transportation, to fund projects that promote active modes of transportation, such as biking and walking.
This bill would require the department, within 2 years of being transferred the rights, privileges, and responsibilities relating to the northern right-of-way described in paragraph (1), to inventory any parcel or contract related to the right-of-way and complete an environmental assessment of the right-of-way. The bill would require the department, before January 1, 2021, to transfer those rights, privileges, and responsibilities to the Great Redwood Trail Agency.

This bill would create the Great Redwood Trail Agency, and provide for the appointment of its board of directors. The bill would require the agency, upon 4 board members joining the agency’s initial board of directors, to advise the department on certain issues relating to the northern right-of-way. The bill would require the agency to create and maintain a trail in, or next to, the northern right-of-way. The bill would require the agency to complete the railbanking process on a portion of the northern right-of-way, and would authorize the agency to contract with an operator to operate freight or excursion rail service on the remaining portion of the northern right-of-way, as specified.

(3) Existing law creates, within the Counties of Sonoma and Marin, the Sonoma-Marin Area Rail Transit District, which is governed by a 12-member board of directors, with specified duties and powers. Existing law requires the district to work with specified authorities to achieve a safe, efficient, and compatible system of passenger and freight rail service and authorizes the district to own, operate, manage, and maintain a passenger rail system within the territory of the district.

This bill would additionally require the district to provide consider the need and financing for employee workforce housing and the means to finance it, housing, and would add a member to the district’s board of directors, to be appointed by the Mendocino County Board of Supervisors. The bill would require the district to conduct a freight rail study incorporating the entire length of the southern right-of-way transferred to the district as described in paragraph (1). The bill would also make various conforming changes to the district’s provisions relating to the abolishment of the North Coast Rail Authority. The bill would repeal the requirement that the district obtain coverage for itself and its employees under certain federal laws.

(4) Because this bill would impose new requirements on local entities, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Vote: majority  Appropriation: no  Fiscal Committee: yes  Local Program: yes
