

## Written submission for the November 12, 2020 Harbor District meeting agenda item # 10b related to the Dog Ranch property

Are the funds identified in the agenda additional funds to the monies the District previously identified while the District was to be title holder of the Dog Ranch?

What specific District account would these funds be withdrawn from if approved?

At what noticed meeting did the Commissioners direct staff to negotiate with FOD to receive District property without providing the public with notice for a Request for Proposal and prior to actually owning the in question property? (The District became owners of the Dog Ranch after accepting state funds for this acquisition)

Was a legal opinion obtained by the District supporting the transfer of this public property to a private entity? In other words was this gifting of public funds supported by any written opinion from an attorney employed by the District?

I will not be available for making public comment at the Nov 12 meeting so I am requesting Executive Director Oetker to read this communication into the minutes.

I am also requesting a written response to the questions proposed above.
